

Arizona Community Anti-Meth Coalitions

Arizona Community Coalitions

Through funding from the Governor's Office for Children, Youth and Families and the Arizona Parents Commission on Drug Education and Prevention, tribal and county level Community Coalitions were developed to address the impact and consequences of the use and production of methamphetamine at the local level. To assist in that effort, a day-long work session was devoted to providing strategies and technical assistance to Community Coalitions during the [February 2006 Arizona Methamphetamine Conference](#). The Community Coalition breakout session was attended by over 150 people representing coalitions from each of Arizona's 15 counties and six tribal coalitions. The Salt River Pima-Maricopa Indian Community and the Fort McDowell Indian Community are also participating as part of the Northeast Valley Coalition.
